

# **Drawing is a Class Act, Years 5–6**

## **A skills-based approach to drawing**

Acknowledgements

Forward

A skills-based approach to drawing

How the skills-based approach works

What the book covers

About drawing

About looking

Moving on in drawing, leaving schema behind

Range of media

Sketchbooks

Erasers and rulers

### **Line**

Rationale

Drawing light lines

About this chapter

Making different types of line in pencil

Different lines in pencil

Expectations after covering key skill

Looking at line in works of art 1

Looking at line in works of art 2

Looking at line in works of art 3

Pens

Making different lines with fine, medium and broad line pens

Fine, medium and broad line pens

Fine line pens

Medium line pens

Broad line pens

Drawing lines with different character

Using line to create tone

Single- and cross-hatching

Illusions with line

Pens with nibs 1

Pens with nibs 2

Making different lines with charcoal

Drawing with charcoal

Scraper technique 1

Scraper technique 2

### **Tone**

Rationale

About this chapter

Making different tones in pencil  
Using tone to shade three-dimensional shapes  
Making different tones in pencil 1  
Making different tones in pencil 2  
Making different tones with charcoal  
Creating tone with charcoal

### **Texture**

Definition  
Rationale  
About this chapter  
Drawing different textures  
Drawing textures

### **Pattern**

Rationale  
What is pattern?  
About this chapter  
Making patterns with line and shape 1  
Making patterns with line and shape 2  
Using line patterns in a doodle  
Collecting patterns from nature  
Using patterns and shapes from nature to create designs  
Collecting patterns from different cultures or times

### **Looking**

Why looking skills are so important  
Rationale  
Helping children to look with new eyes  
About this chapter  
List of possible subjects for drawing or discussion  
Focusing looking through talking  
Talking about the subject before drawing  
Using focusing devices  
Using viewfinders to look for detail and content  
Looking for shape and form  
Recognizing and drawing right angles and parallel lines  
Drawing geometric shapes  
Drawing objects by looking for shapes  
Sighting  
Drawing using sighting  
Learning to see relationships between line and shape when drawing  
Seeing relationships between line and shape when drawing  
How drawing is affected by the two halves of the brain  
How the left side of the brain causes problems  
Seeing negative shapes

Seeing and drawing negative shapes  
Slowing down the speed of looking  
Looking and drawing very slowly  
Looking, holding, drawing a line  
Drawing upside down  
Looking strategies children could use when drawing  
Self-assessment of looking strategies

## **Figures and faces**

Rationale  
Basic rules  
About this chapter  
Drawing the whole body  
Drawing different poses  
Contour figure drawing  
Gesture figure drawing  
Figure drawing from memory  
Drawing heads and position of features  
Drawing eyes  
Drawing mouths and noses  
Drawing faces  
Drawing faces in profile  
Drawing whole-body portrait

## **Chalk and charcoal**

Rationale  
Media knowledge  
Tips and techniques  
About this chapter  
Making different marks with chalk and charcoal  
Drawing with chalk and charcoal

## **Evaluation and assessment**

Assessment  
Using success criteria to evaluate children's work  
Self-evaluation  
Peer evaluation  
Reporting and tracking progress  
Recording coverage of work  
Reports
