

Review of *Christmas Activities for the Early Years*

Practical Pre-School

Ideas for Christmas activities and language and literacy skills are provided in a new book from Brilliant Publications.

Christmas Activities for the Early Years contains 38 photocopiable worksheets and games linked to the Curriculum Guidance for the Foundation Stage. Teachers' notes suggest how you could extend activities to all areas of learning, including communication, numeracy, and creativity, together with some ideas for Christmas games.

The activities include mazes, building up a scene including Santa, Rudolph and the elves, making wrapping paper, making a Christmas food shopping list, and making and colouring an advent calendar.
