

Long Jump Jim's 10 times table activities

10
times table
Silver Award

1	x	10	=	10
2	x	10	=	20
3	x	10	=	30
4	x	10	=	40
5	x	10	=	50
6	x	10	=	60
7	x	10	=	70
8	x	10	=	80
9	x	10	=	90
10	x	10	=	100
11	x	10	=	110
12	x	10	=	120

Jump as far as you can down the garden, counting in 10s as you go!

Challenge your parent to a long jump challenge. Every time you jump the furthest, up your score by 10!

Throw a bean bag, then jump to it counting in 10s. Try again, seeing if you can throw further this time!

Write the numbers 1 to 12 lots of times all over your patio with chalk. Race a friend to the other side, by jumping onto numbers. You can only jump onto the next number when you have multiplied it by 10 and shouted the answer. Who will get there first?
