## Curved-line Bookmark

*Individual Experience*

### Materials

- 70 x 148 mm coloured sugar paper strips
- scissors
- glue

## Curved-line Bookmark

Pupils cut narrow strips of sugar paper in a curve and layer the strips to create a bookmark.

### Step by Step

1. Pupils choose three different coloured strips.
2. Pupils cut each strip into two pieces with a curved cut.
3. Pupils layer the pieces to create a bookmark. The straight end should always be placed toward the bottom of the bookmark.
4. Glue the pieces together.
5. Laminate for a more lasting bookmark.
