

Living things do these!

All living things can do a number of activities or life processes. Living things are also called **organisms**.

- Tick the four boxes which show the main things which **all animals do**.

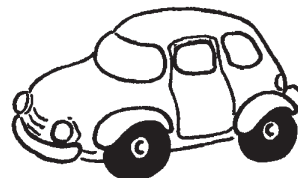

feed	<input type="checkbox"/>	grow	<input type="checkbox"/>	hear	<input type="checkbox"/>	hunt	<input type="checkbox"/>
make a sound	<input type="checkbox"/>	move	<input type="checkbox"/>	reproduce	<input type="checkbox"/>	walk	<input type="checkbox"/>

- **Plants** make their **own food**. Which **two** other life processes do **all** plants do? Tick them.

make food	<input checked="" type="checkbox"/>	grow	<input type="checkbox"/>	hear	<input type="checkbox"/>	hunt	<input type="checkbox"/>
made a sound	<input type="checkbox"/>	move	<input type="checkbox"/>	reproduce	<input type="checkbox"/>	walk	<input type="checkbox"/>

- Using the above information, finish these sentences:

A car is not living because ...

A dried flower is not living because ...

EXTRA!

There are a few more life processes that animals and plants can do. Can you think of them? If not, find out in a book or CD-ROM.
